### In This Update

[Insurance coverage op-ed](#)

[About us](#)

[Contact us](#)

### Dear Working Group Member,

I wanted to share an op-ed I wrote on insurance coverage of over-the-counter contraceptives that appeared yesterday in the Los Angeles Times:

[In the Obamacare birth-control debate, there's a logical path](#)

Please let me know if you have any comments or questions.

Thanks,

Daniel Grossman, MD  
Vice President for Research, Ibis Reproductive Health

### About us

The Oral Contraceptives (OCs) Over-the-Counter (OTC) Working Group is an informal coalition of reproductive health and rights organizations, nonprofit research and advocacy groups, university-based researchers, and prominent clinicians who share an interest in women's health and access to contraception. Our goal is to evaluate objectively the risks and benefits of demedicalizing contraceptive care, with an eye toward improving access to OCs and potentially other hormonal contraceptive methods by making them available without a prescription.

The working group is coordinated by Ibis Reproductive Health.
